

## **ACADEMIC PROGRAM FOR ModelAssist®**

### **Overview of ModelAssist**

ModelAssist from Vose Consulting is a comprehensive training and reference software tool for academic programs. Compared to books on risk analysis, and other risk analysis training software, ModelAssist has valuable advantages:

- ModelAssist teaches all important and proven risk analysis techniques. The focus is not just on teaching the use of risk analysis software but on teaching how to do high-quality risk analyses from identifying the risks and uncertainties to making educated decisions based upon a risk analysis.
- ModelAssist is not focused on one specific application area, but covers all important risk analysis techniques with applications in many areas (see the next page for examples).
- ModelAssist is a practical reference that helps students produce accurate, clear, and defensible risk analyses. All techniques and methods in ModelAssist are illustrated with real world example spreadsheets. Videos, quizzes, a built-in reference system, and a host of special Excel functions make ModelAssist an indispensable risk analysis teaching tool.
- With full search capabilities and a complete index, students will be able to find the answer to almost any risk analysis related question in ModelAssist.
- Vose Consulting is dedicated to help you develop a curriculum to get the most out of ModelAssist.

### **Academic Program Details**

There are two different licenses:

#### 1. Individual Academic License:

- This is a fully functioning version of ModelAssist, and is available to anyone with a current student or other academic ID;
- Individual Academic Licenses come on a CD-rom, have no expiration and include one year of free updates;
- Offered at a 25% discount on the normal retail price (copy of current ID needs to be faxed to +33 (0)553 905 851).

#### 2. Student (or Classroom) Licenses:

- These are also fully functioning versions of ModelAssist, available to professors and course instructors for use in academic courses;
- A minimum of twenty student licenses of ModelAssist Student Licenses must be ordered and paid for at the same time. Course instructors will receive a complimentary copy of ModelAssist on CD-rom;
- The Classroom licenses of ModelAssist come as download only. We provide the serial numbers and students can download ModelAssist from our website at <http://www.risk-modelling.com/software.htm>.
- For the course instructor, one year of free updates is granted for each year that ModelAssist is purchased for students;
